

## Kids for Kupenda!

Kids for Kupenda Clubs help children develop compassion for people living with disabilities and learn how to make their world a more just, loving and inclusive place for people with disabilities.

### What is a Kids for Kupenda (K4K) Club?

K4K clubs are groups of children who meet together at least 1x / month (most meet once per week) to learn about disability issues and initiate ways to help people with disabilities in their school, community and world.

### How does Kupenda Support K4K Clubs?

Kupenda supports these clubs by providing:

- 1) A 1-hour presentation about disability by Cynthia Bauer, who was born without her left hand and started a Kupenda, global nonprofit, that now supports children with disabilities around the world! (presentations can be arranged in-person or by Skype)

- 2) A list of videos and books that K4K club facilitators can use to teach children about disability.
- 3) Exercises to help kids brainstorm how they can make their school and community more disability-friendly.
- 4) Activities to help club members raise support children with disabilities in Kenya (one club even sponsored a Kenyan child with a disability!)
- 5) A template for K4K Club shirts and swag, courtesy of the first K4K Club at Cedar Elementary School in Hanover, MA.
