- **Event planning**
- **Researching** disability-related topics
- **Administrative support** (address lists, editing documents, mailings)

### About Kupenda

*Kupenda for the Children is a 501 (c)(3) non-profit that equips children with disabilities to achieve their full, God-given potential through advocacy, education and medical care. For more than 14 years, we have worked alongside local leaders and community members in Kenya to advocate for the rights of children with disabilities. We also work to change negative stigmas that lead many people to believe children with disabilities are cursed and unworthy of basic human rights. We find that when local leaders have a correct perception of disability, many begin to include these children in community life and support them in accessing health care and education. We believe this locally-driven action is the answer to meaningful, sustainable support for these children.*
