### About Kupenda

*Kupenda for the Children is a 501(c)(3) non-profit whose mission is to transform harmful beliefs surrounding disability to those that improve children's lives. Many in low-income countries hold superstitious beliefs about the causes and interventions for children with disabilities leading to their abuse and murder. To change this situation, we collaborate with influential community leaders and families to reduce stigma associated with disability and ensure these children can access the education, medical intervention, and the inclusive love everyone deserves. Hence calling ourselves "Kupenda," the Swahili word for love.*
